## Impressive victory in famous economy run officially confirms Pontiac's superior economy! THE annual Yosemite Valley Economy Run is the year's big test SATISFY YOURSELF WITH

of economy claims—and here is what it revealed: Under American Automobile Association supervision, the 1936 Pontiac traveled 352 miles at an average of 23.9 miles per gallon (no oil added), defeating all entrants in its class\*.

That settles the matter of Pontiac's economy. Pound for pound, you can't do better. A quart of oil goes farther in a Pontiac, thanks to finer engineering. As for dependability-many Pontiacs have now traveled over 200,000 miles! Buy a Pontiac for economy. Buy it for dependability. Buy it for anything else you want. You won't be disappointed, for Pontiac asks no odds of any car at any price.
